

Separator and Posi-Flo™ Automatic Suction Control

- **Maximum Efficiency**
- **Minimum Maintenance**

Separator mounted over Automatic Suction Control

Separator

- Removes sand, dirt, pepper trash
- Disperses lumps and wads
- Wiper seals on drum arms keep screen clean
- Available in 96-inch and 120-inch Unloading and 72-inch Overflow models

Posi-Flo™ Automatic Suction Control

- Increases gin efficiency
- Provides uniform flow of seed cotton into the ginning system for maximum cleaning and efficiency
- Heavy-duty feed rollers
- Fingertip control assures uniform flow of cotton through ginning system
- Two dispersing cylinders break up seed cotton into small clusters for maximum exposure and trash removal (on 96-inch model)
- Vane switch detects cotton level for automatic control of incoming feed to the gin
- Free-standing model available in 96 and 120-inch widths
- A 120-inch-wide model is specially designed to fit under module dispersers
- A 120-inch-wide Double Posi-Flo™ allows for complete split-stream operation

10-Flight Vacuum Wheel

- Longer flashing life
- Pivoting Front Scroll allows for easy maintenance
- Better seal reduces air loss
- Six flashing strips in contact with side walls at all times
- Reduced downtime
- Sealed bearings, protected from heat and abrasive dirt
- Direct-drive with C-Face Reducer
- 22.5-inch or 34-inch diameters
