

Lummus Premium Gin Saws

Unmatched quality, reliability, and performance.

As part of our ongoing commitment to provide the ginning industry with repair parts that are second to none, Lummus Premium Gin Saws are the highest quality and feature improved metallurgical properties that provide for longer life than previously available from any saws in the market.

The quality and performance of the gin saw is of paramount importance to the efficient and profitable operation of the gin plant. Longer life means less saw changes, reduced downtime, and lower overall repair expense.

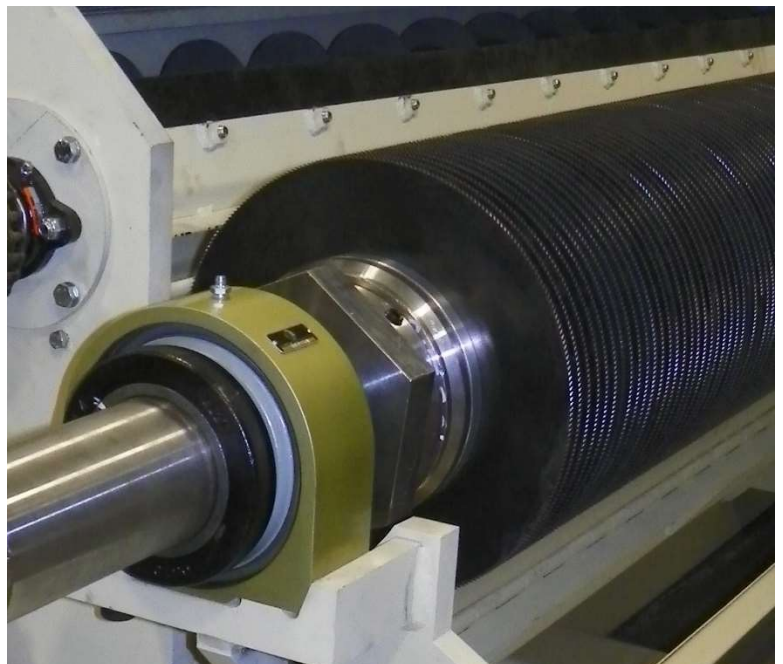

Premium Gin Saw Features:

- Advanced metallurgy to provide for longer life, higher performance, and unmatched seed cleaning.
- Available in both 12" (305 mm) and 16" (406 mm) diameters.
- Available in 0.036" (0.914 mm), 0.037" (0.940 mm), and 0.045" (1.14 mm) thicknesses.
- Each saw is laser etched for ease in identification and to allow for lot tracking to ensure the highest quality.

PREMIUM GIN SAW SIZES AVAILABLE

Diameter (Inches)	Thickness (Inches)	Bore (inches)	Tang Design	Part Number
12	0.036	2 7/16	Conventional	545855
